## 🔧 Notable Projects

### VargScore In Process

@ [github.com/jonathanhild/vargscore](https://github.com/jonathanhild/vargscore)

ML model with inference/training pipeline to identify connections in heavy metal music.

### ETL & SKU Generator

@ Oregon Spice Company

ETL for conversion of 10+ years company data for new ERP system. Produced model and scripting to generate 600+ item SKUs using raw material densities.

### Traceability System in SQL

@ Oregon Spice Company

SQL scripts connected to ERP system to run traceability exercises. Improved traceability completion time by 16x and personnel by 3x.

### Statistical Analysis of Mozzarella Line

@ Lactalis American Group

ANOVA statistical model to find sources of underweight finished products in mozzarella line. Created 1.5 year dataset; presented results and guidance to plant operations team.
